

A V 8 6

INSTRUCTIONS

EARTHRISE 2026

INTRODUCTION

Earthrise is a limited edition collaboration between AV86 and WWF Denmark, created to honor and support the greatest design ever made — Earth itself. Inspired by the iconic photograph of our planet seen from space, this watch serves as a daily reminder of the beauty, fragility, and interconnectedness of nature

SPECIFICATIONS

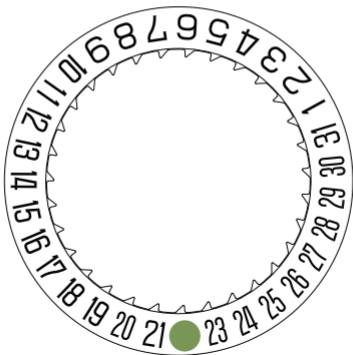

Caliber:	Miyota 8215 Automatic with costum datewheel
Power reserve:	42 Hours
Glass:	Double domed saphire glass
Water Resistance:	20.ATM – Water tested to 200 meters. Suitable for diving

GREEN DOT DATE WHEEL

The date wheel on Earthrise highlights the 22nd in every month with a green dot (Earthday is 22 March of every year)

A small but powerful nudge to be continually mindful of our planet.

HOW TO SET TIME AND CHANGE DATE

1. Unscrew the crown counterclockwise and pull out to first click position.
2. Turn the crown counter clockwise to change the date.
1. Pull the crown out to second click position.
2. Turn the crown counterclockwise to set the time.
3. Push the crown back into normal position.
4. Always securely screw in the crown.

You do so by pushing the crown towards the watch while screwing it clockwise until it's 100% tight.

If this is not done correctly you risk that moist and dust will enter your watch!

HOW TO WIND UP THE MAINSPRING

1. Rotate the crown clockwise at normal position.
2. Wind turning the ratchet wheel screw 8 times. It will start to move naturally after shaking slightly.
(with winding machine. Full wind up conditions
rotary speed : 30 rpm Operating time : 60 minutes.)

ACCURACY

1. Static Accuracy : -20~+40 seconds per day
